WORK EXPERIENCE

PUSH PROTOCOL | FRONT END DEVELOPER   Remote, India | August 2022 – Present

- Executed the implementation of the newly updated PushChat design.
- Created innovative features, introducing specialized wallet/ENS search functionalities for both new and existing users profile.
- Participated actively in the QA and code review processes for pull requests.
- Developed **Analytics Dashboard** for Push Protocol using NextJS and successfully deployed it on gitHub pages. This achievement resulted in a remarkable 70% reduction in the time needed to assess push products analytics.
- Participated in crafting the group chat feature for PushChat, spearheading the creation of group info and group creation process flow, this feature increased the PushChat adoption by 30%.
- Participated in bug fixing and crafted several minor enhancements within PushChat's video call functionality.
- Participated in crafting the push blog page and landing page for the BRB campaign on the Push Protocol website.
- Contributed as a team member in the integration of Push Spaces within the Push Dapp.

NEOGCAMP | FULL STACK DEVELOPMENT TRAINEE   Remote, India | Jan 2022 - July 2022

- Developed 5 fullstack applications using javascript techstack.
- Crafted the frontend utilizing HTML, CSS and JavaScript, ReactJS, ContextAPI, Redux, SCSS and FreshUI. Employed the bootcamp's mock backend for the backend implementation.

WIPRO | PROJECT ENGINEER   Bengaluru, India | Apr 2021 – May 2022

- Collaborated with the Honda project team to seamlessly port the android version of Honda infotainment system.
